

About Us

Delviom is a leading cybersecurity and business intelligence (BI) solutions provider. We work with organizations to provide tailored solutions and services that help make better informed cybersecurity decisions that minimize risk. We take the approach of a trusted advisor, understanding our customers business and challenges, and evaluating their cybersecurity posture and ecosystem to expose risks, optimize resources and implement best-fit solutions. We take on our customers greatest cybersecurity challenges, provide recommendations that address those complex issues and deliver impactful results. We focus on mitigating cyber threats, protecting our client's critical assets, infrastructure, and applications across Federal and commercial markets.

Our Services

Cyber Security

Program Management, Assessment & Authorization, Compliance, Privacy, Zero Trust Architecture & Engineering, Security Operations, IV&V, DevSecOps, and Audit.

- Application, Cloud, Data, Email & Endpoint Security

Delviom Case Studies - Federal/Commercial

U.S. Department of Agriculture – Natural Resources Conservation Service (NRCS)

Customer's Challenge:
Implementation of Vulnerability Management Program

Delviom's Solution: Delviom worked with USDA NRCS OCIO to implement their Vulnerability Management Program. Delviom helped build, setup and deploy the Enterprise Scan Infrastructure and associated tools. Delviom also led the setup of a security test lab as an Application Security **Center of Excellence**.

Outcome/Benefits: The program gave USDA NRCS the ability to rapidly detect and mitigate vulnerabilities during the development lifecycle.

U.S. Department of Agriculture (USDA) – Rural Development

Customer's Challenge:
Implementation of Secure SDLC

Delviom's Solution: Delviom worked with RD OCIO to provide Security Architecture & Engineering services, Privacy support and Vulnerability Assessments. Delviom set up the framework and implementation of a Secure SDLC that included Baseline Security Requirements, Stage Gates, Secure Design and Architecture reviews and Vulnerability Assessments. We also worked on the Quality Assurance team to provide Test Automation services.

Outcome/Benefits: This provided the client a true picture of code security and allowed Security to be plugged into all aspects of the SDLC.

DHS – Federal Emergency Management Agency (FEMA)

Customer's Challenge:
Cross-agency cybersecurity Support

Delviom's Solution: Delviom established the CISO Operational Risk Management Board and Secretariat for the RMF Division. We achieved 100% Compliance on the agency Cybersecurity Scorecard under the Road to Green program. Delviom supported the Security by Design Architecture that baked Security into the FEMA acquisition process. We established a FedRAMP PMO function to provide continuous access to packages supporting agency cloud migration.

Outcome/Benefits: Engaged all stakeholders and allowed Security to become a collaborative integrated partner with agency PMOS.

U.S. Securities and Exchange Commission

Customer's Challenge:
Implementation of Vulnerability Discovery, Bug Bounty and Penetration Testing services.

Delviom's Solution: Delviom implemented a Bug Bounty Program that covered Researcher Management, Test Management, Penetration Testing on infrastructure and systems. Further, Delviom implemented a Vulnerability Disclosure Platform to manage submissions, reporting and payments.

Outcome/Benefits: The program allowed the involvement of expert commercial security researchers via crowdsourcing which allowed discovery of previously unknown vulnerabilities.

U.S. Agency for Global Media (USAGM)

Customer's Challenge: Implementation of FISMA Staff Support Services

Delviom's Solution: Delviom provided comprehensive cyber security planning, technical and administrative services support for the OCISO IT Security Policy & Compliance divisions. Delviom updated key system documentation and received full system approvals for 21 out of 22 USAGM managed systems.

Outcome/Benefits: Delviom personnel helped provide a solid baseline for the maturation of the FISMA program across several workstreams by providing subject matter expertise, utilizing agile project management, proactive and transparent communications, and reporting.

Government Publishing Office

Customer's Challenge:
Implementation of Business Intelligence Program

Delviom's Solution: Delviom provided O&M Support services for the Business Objects reporting environment at GPO. Nearly three hundred Business Objects reports were developed for GPO user community to satisfy business needs. We provided technical subject matter expertise to sustain the Enterprise Reporting System. This allowed them to meet compliance and regulatory requirements.

Outcome/Benefits: The reports and dashboards provided exceptional visibility to facilitate decision making.
