Next Level Solutions, LLC

SBA 8(a) Certified Firm

Next Level Solutions, LLC, provides expert IT support services. Training has been a core service of NLS since its founding in 1993 as a user training firm for the US Department of Education Horace Mann Learning Center. Our IT training services includes a broad range of offerings from programming, user applications, systems engineering, and cybersecurity. We provided highly technical and professional help desk services. Our cybersecurity division, CyberAssure, is a full service information security governance, risk management, and compliance advisory firm supporting organizations of every kind.

NLS has distinguished service to the federal government in programming, database design, network architecture engineering, system security design and testing, setting priorities, developing project schedules and milestones, and meeting schedule objectives for multiple ongoing projects.
