303 Williams Ave., Suite 621, Huntsville, AL 35801

- ISO 9001:2015 and 14001:2015 Certified
- Facilitate fieldings and inventorying of equipment and parts - Our employees are fully engaged in reconciling parts obsolescence for a cost savings to our customers
- Certified employees in GCSS-A for Property Book Management and Supply Room Functions utilizing PBUSE and ULLS – A(E)
- Assisted in writing and developing of Standard Operating Procedures for major aircraft retirement programs
- Instrumental in the Storage, Analysis , Failure Evaluation and Reclamation Satellite (SAFR-Lite) Program to identify, inspect and repair critical components with long times. These components filled critical backorder requisitions which ultimately returned aircraft to flyable condition in the battlefield

## Company Profile

Applied Technologies Group (ATG) is an 8a, woman-owned small business founded in 2006 to serve government and commercial clients by providing a solid corporate infrastructure, proven program management processes, and strong financial stability. ATG is a respected, multidisciplinary, and dynamic company engaged in Logistics, Business/Analytical, Programmatic, Technical Management and Cyber Security Services.
